Rotary Aircraft

Rotary Aircraft

The electric motor rotary project designed and manufactured by our company is a new type of program-controlled recreation machine equipment, which rapidly rotates and jumps accompanying the rhythm of the music in a limited venue. Its overall structure is of novel design, reliable and exquisite appearance. Twelve luxurious and comfortable cabins equipped with colorful lanterns, analog audios and cartoon characters allow the visitors to experience extreme dynamic speed. This product is of pleasing appearance, large capacity and low operation costs. It is also reliable and easy to maintain.
